Claims 1, 3-14, 18-22, 24-27 and 29 are rejected under 35 U.S.C. 103(a) as being unpatentable over the European Patent No. 0 595 005 A1 in combination with Klevay et al (American Journal of Clinical Nutrition, Vol. 75, No. 3, 550-554, March 2002) for the reasons set forth in the Office Action of February 7, 2006.

Applicant's arguments filed June 2, 2006 have been fully considered but they are not persuasive.

Applicant contends that Klevay is not concerned with vascular disease or its treatment and prevention and is not concerned with a vitamin composition. Applicant further contends that Klevay shows that supplementation with a capsule of 200 mg/day is required to maintain magnesium levels above the recommended daily allowance in middle-age women consuming a low magnesium diet. These arguments have been considered but have not been found persuasive. Klevay et al disclose that magnesium is beneficial in counteracting all phases of the processes that lead to ischemic heart disease and may protect against coronary heart disease. Therefore, a person having ordinary skill in the art at the time the claimed invention was made would have been motivated to add magnesium to the vitamin composition disclosed by the European Patent. Klevay et al further teach that magnesium intakes of women in the United States generally do not meet the 1989 RDA of 280 mg and that some groups average 210 mg/d. Thus adding about 100 mg of magnesium to the diet of women consuming 210 mg/d, would result in recommended RDA for magnesium. Therefore, the claimed compositions and methods are still deemed prima facie obvious over the cited prior art.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
